

You are an
intelligent human
being....

We just happen to
be looking for one.

Who We Are: Fisher Engineering, Inc. (FEI) is a fire protection engineering design and consulting firm with offices in Atlanta, GA and Phoenix, AZ. Like most people that major in fire protection engineering, we got into the field because we wanted to make a difference. Our staff enjoys a relaxed atmosphere without being in a cube farm. With their passion for engineering, our senior staff guide our young talent to grow and develop into knowledgeable, high-performing engineers. Even though our work is serious, we have fun while doing it.

What We Do: We provide building and fire code consulting, fire protection system design and commissioning, third party fire protection engineering design review, fire origin and cause investigations, forensic fire protection engineering analysis and expert testimony.

Where We Do It: We are currently providing services across North and South America for projects including aircraft hangars, fuel tank farms, manufacturing facilities, chemical process facilities, warehouse/storage, detention/correctional, as well as office and residential facilities.

What We Seek: A Fire Protection Consultant for both our Atlanta, GA and Phoenix, AZ offices to grow with us. As a fire protection consultant with FEI, you will work with our registered fire protection engineers performing:

- Fire protection and life safety system design
- Commissioning of fire protection and life safety systems
- Facility fire protection, code and life safety analysis
- Hydraulic modeling, including hydrant and fire pump testing
- Forensic engineering

Qualifications Required:

- Interest in getting your hands dirty and feet wet in the field, not just sitting at a desk
- Bachelors or Masters degree in Fire Protection Engineering
- Five years or less work experience in fire protection engineering
- Engineer-In-Training (EIT) preferred
- Professional Engineering registration a plus
- Revit or AutoCAD experience preferred
- U.S. Citizen required

FEI offers an excellent compensation package including profit sharing, retirement plan (with company match), health/dental insurance and flexible work hours. FEI is an equal opportunity employer.

If this sounds like a great match for you, please email your resume to Doug Fisher at contact.us@feifire.com.
